Instructions	Screen Shots
<p>Step 4: More settings will extend.</p> <p>Scroll down your screen until you see the 'Privacy and Security' section.</p> <p>Select Content settings.</p>	 <p>The screenshot shows the 'Settings' application with the 'Privacy and security' section expanded. The 'Content settings' option is highlighted with a green box, and a green arrow points to it from the left. The 'Content settings' option is described as 'Control what information websites can use and what content they can show you'. Other visible options include 'Manage certificates', 'Clear browsing data', and several toggle switches for web services and Google services.</p>

Instructions	Screen Shots
<p>Step 5: The window will slide to the right to show Content settings.</p> <p>Scroll down until you see a puzzle icon labeled as Flash.</p> <p>Click on Flash.</p>	 <p>The screenshot shows the Chrome Settings application. At the top, there is a blue header with a hamburger menu icon, the word 'Settings', and a search bar labeled 'Search settings'. Below the header is a list of settings categories. The 'Flash' setting, which includes a puzzle piece icon and the text 'Allow sites to run Flash', is highlighted with a green rectangular border. Other settings visible include 'Content settings', 'Cookies', 'Location', 'Camera', 'Microphone', 'Notifications', 'JavaScript', 'Images', and 'Popups'.</p>

Instructions	Screen Shots
<p>Step 6: Under the Flash section, turn on the gray button to the blue button Allow sites to run Flash.</p> <p>Note: Make sure to turn off the Ask First button to gray if it is currently turned on.</p>	 <p>The first screenshot shows the 'Flash' settings page. At the top is a search bar labeled 'Search settings'. Below it is a back arrow and the title 'Flash'. The main setting is 'Block sites from running Flash', which has a toggle switch that is currently turned off (gray). A green arrow points to this toggle, which is also enclosed in a green box. Below this are three other settings: 'Ask first' (toggle turned off), 'Block' (with 'No sites added' and an 'ADD' button), and 'Allow' (with 'No sites added' and an 'ADD' button).</p>  <p>The second screenshot shows the same 'Flash' settings page. The 'Allow sites to run Flash' toggle is now turned on (blue). A green arrow points to this toggle, which is enclosed in a green box. The 'Ask first' toggle is now turned off (gray), also indicated by a green arrow and a green box. The 'Block' and 'Allow' sections remain the same with 'No sites added' and 'ADD' buttons.</p>
